Profile

Full Stack Developer with a strong ability to create responsive and interactive web applications.

Projects

- Amazon Clone**

09/2025 – 09/2025

A recreation of the core Amazon e-commerce platform featuring **user authentication** (sign-up/login), a browsable **product catalog**, and a functional **shopping cart**. Developed with **[Front-End Technology]** to ensure a responsive, pixel-perfect user interface and intuitive user experience.
- Weather API** 

10/2025 – 10/2025

A dynamic, single-page application built with **[JavaScript]** that consumes external RESTful APIs to deliver real-time meteorological and air quality data. Features include current conditions, a **3-day forecast**, location-based searching. Focus was placed on intuitive data visualization and a modern UI using **[Tailwind CSS/Custom CSS]**.

Technical Skills

- Languages**

- Python
 - JavaScript
 - Kotlin
- Skills**

- Scripting in JavaScript
 - Blender
- Technologies/Frameworks**

- Git
 - GitHub
 - Ubuntu

Education

- Computer Science and Engineering**

08/2025 – Present

Lovely Professional University Punjab
Jalandhar, Punjab
- 12th with Science - Percentage: 67.04%**

2024 – 2025

Kendriya Vidyalaya BHEL Haridwar
Haridwar, Uttarakhand
- 10th with Science - Percentage: 89.8%**

2022 – 2023

Kendriya Vidyalaya BHEL Haridwar
Haridwar, Uttarakhand

Certificates

- Time Management Tips**
- Sports**

- Total I have 38 Medals in sports
