SUMMARY

Full-Stack Developer and B.Tech student skilled in **MERN, Next.js, PostgreSQL, React Native, and AI integration**. Experienced in building scalable web and mobile applications with a focus on solving real-world problems. Passionate about **AI, emerging technologies, and entrepreneurship**, with a strong interest in turning ideas into impactful products.

TECHNICAL SKILLS

MERN Stack | Next.js | Three.js | GSAP | JavaScript | Java

PROJECTS

COGGNORA

June 2026 – Aug 2026

- Developed and launched a productivity-focused desktop application designed to help users reduce digital distractions and improve focus.
- Built features for tracking time spent on distracting applications and websites, setting maximum waste-time limits, and monitoring user activity at configurable intervals.
- Implemented application and website blocking to prevent access to selected distractions during focused sessions.
- Designed the application architecture and developed the core functionality, user interface, system integrations, and deployment pipeline independently.
- Published the completed application on the **Microsoft Store**.

KisanRaw — AI-Powered Farmer Procurement & Queue Management

Aug 20256 – Present

- Developed a **full-stack web and mobile platform** to streamline farmer procurement, slot booking, and queue management.
- Implemented **real-time queue tracking, digital token generation, centre capacity management, and estimated waiting-time prediction**.
- Integrated **AI-based congestion prediction and intelligent centre/slot recommendations** to reduce waiting time and unnecessary visits.
- Enabled farmers to track **procurement and payment status** with real-time SMS/push notifications.
- Built dedicated **farmer, procurement-centre, and admin dashboards** for end-to-end procurement management.

EDUCATION

CLSS 10TH | KENDRIYA VIDYALAYA

2022 – 2023

CLASS 12TH | KENDRIYA VIDYALAYA

2024 – 2025

B. TECH | LOVLEY PROFESSIONAL UNIVERSITY

2025 - PRESENT
